EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric J. Hanson on 24 November 2004.

2. The application has been amended as follows:

Claims 1-11 (canceled)

12. (currently amended) A planting bed for ~~container-plants~~ plants in a container comprising;

- a. a raised planting bed;
- b. a weed-deterring material covering the raised planting bed;
- c. a ~~container-plant~~ plant in a container contained in a hole in the raised planting bed;
- d. a water line directed to the ~~container-plant~~ plant in a container; and
- e. a temperature controlling line beneath the weed-deterring material for controlling the bed temperature, wherein the temperature controlling line is a driptape.

13. (currently amended) The planting bed of claim 12, further comprising a rooting-deterrent material between the ~~container-plant~~ plant in a container and the hole in the raised bed.

Claims 14-16 (canceled)

17. (currently amended) The planting bed of claim 12, wherein the water line includes a spray emitter and is an individual line to the ~~container-plant~~ plant in a container.

Art Unit: 3644

18. (currently amended) The planting bed of claim 17, wherein the spray emitter is attached to a container holding the ~~container-plant~~ plant in a container.

19. (currently amended) The planting bed of claim 13 wherein the water line includes a spray emitter and is an individual line to the ~~container-plant~~ plant in a container.

Claims 20-29 (canceled)

30. (currently amended) A method for growing ~~container-plant~~ plants in a container comprising:

a. providing a ~~container-plant~~ plant in a container in a raised bed, wherein the raised bed includes a cover material and wherein the cover material is a water-permeable weed barrier;

b. providing a temperature control line beneath the cover material to control temperature in the raised bed surrounding the ~~container-plant~~ plant in a container, wherein the temperature control line includes driptape and moistens the bed surrounding the ~~container-plant~~ plant in a container; and

c. providing a water line for hydrating inside the ~~container-plant~~ plant in a container wherein the water line includes a spray emitter.

Claims 31 and 32 (canceled)

33. (currently amended) A method for growing container plants comprising;

a. providing a ~~container-plant~~ plant in a container in a raised bed, wherein the raised bed includes a cover material and wherein the cover material is a water-permeable weed barrier

b. providing a temperature control line beneath the cover material to control temperature in the raised bed surrounding the ~~container-plant~~ plant in a container;

Art Unit: 3644

c. providing a watering line for hydrating inside the ~~container-plant~~ plant in a container; and

d. providing a rooting-deterrent material between the ~~container-plant~~ plant in a container and a hole in the bed holding the ~~container-plant~~ plant in a container.

Claim 34 (canceled)

35. (currently amended) The planting bed of claim 12, wherein the ~~container-plant~~ plant in a container is wrapped in a rooting-deterrent material.

36. (previously presented) The ~~method~~ planting bed of claim 35, wherein the rooting-deterrent material includes polypropylene fabric.

37. (currently amended) The ~~method~~ planting bed of claim 13, wherein the rooting-deterrent material includes polypropylene fabric.

38. (currently amended) The method of claim 29 30, further comprising providing a rooting-deterrent material between the ~~container-plant~~ plant in a container and the raised bed.

39. (currently amended) The method of claim 29 30, further comprising providing a plurality of ~~container-plants~~ plants in a container in the raised bed and providing each ~~container-plant~~ plant in a container with an individual watering line.

40. (currently amended) The method of claim 39, wherein each individual watering line includes a spray emitter for watering each ~~container-plant~~ plant in a container,

41 . (currently amended) The method of claim 33, wherein the temperature control line moistens the bed surrounding the ~~container-plant~~ plant in a container.

42 (previously presented) The method of claim 41, wherein the watering line includes a spray emitter.

Art Unit: 3644

43. (previously presented) The method of claim 33, wherein the watering line includes a spray emitter.

44. (currently amended) The method of claim 33, further comprising providing a plurality of ~~container-plants~~ plants in a container in the raised bed and providing each ~~container-plant~~ plant in a container with an individual watering line.

3. Upon further review of the application, the examiner noted that in claims 42 and 44, “water” should be changed to --watering-- based on independent claim 33, and similarly in claim 39 “watering” should be changed to --water-- based on independent claim 30.

4. The following changes to the drawings are suggested by the examiner: Figures 9 and 10 appear to be in an informal format and should be revised. It is also brought to applicant’s attention that the photos of Figures 2A, 2B, 6A and 6B are difficult to discern. In order to avoid abandonment of the application, applicant must make these above drawing changes.

5. The following is an examiner’s statement of reasons for allowance: The prior art made of record fails to show a plant in a container that is placed in a raised planting bed, having a driptape temperature control means and covered with a weed deterring material, and wherein a water line is directed to the plant container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
